

ENHANCED OIL RESOURCES ANNOUNCES ADDITIONS TO STAFF

Listed: TSX Venture Exchange (Symbol: EOR)

Houston, November 12, 2007— The Board of Directors of Enhanced Oil Resources Inc. (the "Company") is pleased to announce that the Company has appointed Mr Barry Portman as Manager Drilling and Well Operations. Mr Portman will join the Company on November 21, 2007.

Mr. Portman holds a Bachelor of Science degree in Mechanical Engineering from Rose-Hulman Institute of Technology and has 10 years of experience in the oil industry. Barry has spent most of his career with Marathon Oil and Kinder Morgan CO2 where he was Production Manager and most recently Drilling and Well Operations Manager responsible for drilling and production operations in Kinder Morgan's enhanced oil recovery fields.

EOR Inc.'s President and CEO Mr. Barry Lasker reports "The Company is very pleased to have Barry join the team at EOR. Barry's experience in the oil and gas industry and his knowledge of CO2 drilling and enhanced oil recovery (EOR) operations will greatly help the Company as it executes its plan to become one of the largest EOR resource companies in the Country."

Enhanced Oil Resources Inc. is a development stage, enhanced oil recovery (EOR), company that controls approximately 235,000 acres of land within the St Johns Helium/CO2 field in Arizona and New Mexico where the Company is developing what is thought to be the largest undeveloped resource of helium and carbon dioxide gases in North America. Independent engineering firms have estimated that the St Johns field contains approximately 15 trillion cubic feet of in place resources, with a potential recoverable resource of 5 trillion cubic feet. Development of the project could result in the Company becoming one of North America's largest CO2 suppliers and EOR producers. The Company's strategic focus for CO2 delivery and EOR production is the Permian Basin where significant potential exists for enhanced oil recovery from mature, depleted oil fields.
