

ENHANCED OIL RESOURCES TO PRESENT AT EUROPEAN ENERGY CONFERENCES

Listed: TSX Venture Exchange (Symbol: EOR)

Houston, November 9, 2007— Enhanced Oil Resources Inc. (the “Company”) is pleased to announce that it will be presenting at the Academy & Finance Energy Conferences on Tuesday, November 13th in Geneva and Friday, November 16th in Zurich, Switzerland. The conferences are focused on different types of energy and how today’s world-wide energy dynamics are changing.

EOR Inc.’s President and CEO Mr. Barry Lasker will start his presentation at 9:50 am on both the Tuesday and Friday. If you reside in or near Geneva or Zurich, or are planning to attend the conference, we invite you to listen to the presentations. For further information or to register for the conferences please visit: www.academyfinance.ch

Enhanced Oil Resources Inc. is a development stage, enhanced oil recovery (EOR), company that controls approximately 235,000 acres of land within the St Johns Helium/CO2 field in Arizona and New Mexico where the Company is developing what is thought to be the largest undeveloped resource of helium and carbon dioxide gases in North America. Independent engineering firms have estimated that the St Johns field contains approximately 15 trillion cubic feet of in place resources, with a potential recoverable resource of 5 trillion cubic feet. Development of the project could result in the Company becoming one of North America's largest CO2 suppliers and EOR producers. The Company’s strategic focus for CO2 delivery and EOR production is the Permian Basin where significant potential exists for enhanced oil recovery from mature, depleted oil fields.
